Hi Renee,

This is confirmation that these were permanently withdrawn so they can be distributed. Here is the letter from the applicant:

They were coded as a mix between abandoned and withdrawn certificates, but they all should be coded as permanently withdrawn. I have updated our database accordingly. Thanks for checking.

Subject: PVP samples

Hey,

I'm a little behind on PVP updates. It looks like I have 5 potato varieties that are Certificate Abandoned

Accession	Name	IPR Number
PI 669485	Andean Sunside	PVP 201200391

PI 669487	Papapura	PVP 201200410
PI 669566	Novella	PVP 201200409
PI 670474	Citadel	PVP 201200413
PI 677328	Athlete	PVP 201600008

I'm verifying these have been abandoned and can now be split with the site for distribution.
Thanks!

Renee White
